

Muhammad Habib ur Rehman Khan

Backend / Full-Stack Developer

Attock District, Pakistan | WhatsApp: +92 319 5522591 | official.habib92@gmail.com | github.com/legeRise

Python/Django developer building production business systems, REST APIs, dashboards, background jobs, AI integrations, and mobile-facing backend features. Experienced with Django/DRF, Flask/FastAPI, Celery, PostgreSQL, OpenAI/LangChain, frontend integration, and Linux/Nginx deployment support.

CORE SKILLS

Backend	Python, Django, Django REST Framework, Flask, FastAPI
Database & Async	PostgreSQL, Celery, background jobs, data handling
Frontend / Mobile	JavaScript, React, HTMX, React Native, HTML/CSS
AI & APIs	OpenAI, LangChain, REST APIs, third-party integrations
Deployment	Linux, Nginx, Git, production debugging

EDUCATION

COMSATS University Islamabad — BS Software Engineering Jun 2020 - Jun 2024

WORK EXPERIENCE

Better AI — Python Developer Aug 2024 - Present

- Built and maintained production Django/Flask apps for dashboards, order workflows, approvals, notifications, reports, and API-driven products.
- Developed REST APIs and backend logic for customer orders, employee tasks, status tracking, invoice flows, and operational dashboards.
- Implemented async/background processing with Celery for notifications, scheduled work, data handling, and production workflows.
- Integrated OpenAI/LangChain features with product data for chat-based support and retrieval-style user experiences.
- Supported third-party APIs, frontend integration, Linux/Nginx deployment support, bug fixes, and production debugging.
- **Tech:** Python, Django, DRF, Flask, Celery, PostgreSQL, OpenAI, LangChain, JavaScript, React Native, Linux, Nginx

PROFESSIONAL

Yole Hub — Validation System Feb 2025 - Present [hub.yole.com](#)

- Built role-based approval flows for products and stores, including auditing, users, notifications, and process tracking.
- Maintained access logic for franchisee, headquarters, auditor, and super-admin roles.
- **Tech:** Django, HTMX, JavaScript

Upkeep Shoes — Business Management System Sep 2025 - Present [upkeep.thebetterai.com](#)

- Built backend APIs and dashboard screens for customer orders, employee tasks, statuses, reports, notifications, and operational workflows.
- Worked on invoice and order flows, status updates, production bug fixes, and frontend/API integration.
- Improved slow pages and production issues through backend debugging, query review, and UI/API fixes.
- **Tech:** Django, DRF, JavaScript, Dashboards, APIs

Arbzoom — Arbitrage Betting Platform Aug 2024 - Aug 2025 [arbzoom.com](#)

- Developed features for arbitrage opportunities, user wallets, bet approvals, admin controls, and frontend interactions.
- Implemented background tasks and daily platform workflows using Django, Celery, HTMX, and JavaScript.
- **Tech:** Django, Celery, HTMX, JavaScript

Hotshot AI — Product Chatbot Jan 2025 - Mar 2025 [hotshotai.thebetterai.com](#)

- Built a Flask/OpenAI chatbot for HotShotSecret.com to answer product questions using available product data.
- Added structured retrieval, product lookup, FAQ-style responses, and solution suggestions for product-related queries.
- **Tech:** Python, Flask, OpenAI, REST APIs

PERSONAL PROJECTS

EzClip — AI Video Generation Platform [github.com/legeRise/ezclip-backend](#)

- Built an AI-powered video generation backend for turning scripts into narrated videos with generated visuals, captions, and cinematic effects.
- Implemented background processing with Celery/Redis, AI agents, concurrent image generation, SSE-based progress tracking, and Cloudflare R2 storage.
- **Tech:** Django, Django REST Framework, Celery, Redis, OpenAI, Runware, MoviePy, SSE, Cloudflare R2

EzTajweed — Quran Learning Application Google Play: [play.google.com/store/apps/details?id=com.eztajweed.app](#)

- Built and published a React Native Quran learning application featuring an interactive IndoPak 16-line Mushaf, ayah-level navigation, audio, translations, Tajweed explanations, and quiz-based practice.
- **Tech:** React Native, Django REST Framework, PostgreSQL, Cloudflare R2
